PROJECTS

BrainWave React App

Modern UI/UX website, developed using React.js, Vite and Tailwind CSS, exemplifies modern UI/UX principles. Its sleek design, seamless animations, and overall user experience set a high standard, serving as a reference or inspiration for future modern applications or websites in general.

Memory Game App

Memory Game a fun memory game!

The game is to find all the matching pairs of cards on the game board. Each turn, you can flip over two cards. If the cards match, they will stay face up. If they don't match, they will be flipped back over, and you will have to remember their positions for future turns.
